

Santander Cash Nexus

PORTAL

Santander Cash Nexus Portal is our corporate online banking; it is secure, flexible and customisable. An alternative designed to improve your business efficiency and effectiveness. You can control your payments and view your accounts in different countries from a single platform. Santander Cash Nexus Portal adapts to your company, saves you time, maximises your efficiency and helps you to minimise risks.

Our solutions for you

Payment Control

Use Santander Cash Nexus Portal to control your transactions by displaying information about the status of all your payments.

Local offer

Portal features a powerful offer of payment types for each individual country thus meeting your global needs.

Visibility

Portal allows you to view and monitor your Santander accounts and your accounts with other entities, with a global consolidated position.

Security

Portal offers two forms of signature: Open Span token (formerly, Vasco); and SWIFT's multibank 3SKey option.

Flexibility

Display, pay and authorise transactions securely from any location.

Portal is available in six languages: English, Spanish, Portuguese, French, Italian and German.

Autonomy

Administer the rights to access the platform yourself and create customer authorisation policies.

Why Santander Cash Nexus?

Santander Cash Nexus means transparency, efficacy and personalisation. This Cash Management solution optimises your company's cost savings, return and cash flows in addition to offering you complete control over your business worldwide and maximising your earnings.

Banco Santander is the best option for long-term associations, and guaranteed commitment.
